

## Our School Vision

By 2026

All of our pupils will achieve regardless of starting point. They will leave our school both literate and numerate. Our curriculum will reflect the children's rich diversity, equipping them with the cultural capital that will empower them to discover life's many opportunities and helping them to achieve their God-given destiny.

We will become a hub for the local community and promote good parenting skills, so that our children are ready for school and establish a culture of involving parents and carers fully with their children's education and school life (in general).

We will invest in all staff so that we can prepare them for the next steps in their careers. We will spot and nurture their individual interests and talents, as well as provide them with new opportunities for them to develop their skills and knowledge.

We will invest financially and physically in our school so that we create a welcoming, stimulating and spiritual environment, both indoors and outdoors, with a dedicated community and pastoral hub.
